

ASTRAL

Pressure / Temperature Wireless Monitor

Constantly monitors pressure/temperature in tyres
Audio and video alarm when settings exceeded
Settings are easily adjustable
Internal battery or car 12 V power
Always know vehicle tyre pressure

Install a wireless pressure / temperature
sensors in desired tyres

VEHICLE SAFETY

Tyre Pressure & Temperature Monitor

Features:

- Real time tyre pressure and temperature
- Large LCD display with auto backlight
- Visual and audible warning alert
- Sensor battery monitor
- User set pressure and temperature alert levels
- Pressure deviation alert
- Power save mode and wake up mode
- 4 to 8 tyres can be displayed
- Internal battery or car 12V
- Easy installation

Transmitter:

- Working temperature: -40 ~ +125 °C
- Humidity 100%
- Weight 35g
- Size (LxWxH)mm 72.5 x 52.5 x 19.5
- Battery life 5 years (4 hr./day driving)
- Pressure detect range: 0 ~ 350 kPa +/- 1.3725, 0 ~ 51 +/- 0.2 psi
- Temperature detect range: -30 ~ 99 °C +/- 1 °C

Receiver:

- Temperature range: -30 ~ +85 °C
- Weight 120g
- Size (LxWxH) mm 85 x 51 x 40
- Power is rechargeable Lithium battery or car 12 V (17 mA normal , 21 mA alert)
