

AMS42S2MM

Feature

4.2" high resolution TFT LCD colour monitor). This monitor clips over the existing car rear view mirror. This is a great position for a LCD monitor, as the driver normally scans this position while reversing. Also the monitor is out of view from passing strangers. The monitor can connect to two cameras or one camera and a GPS unit (voice guidance) and has audio speaker. The monitor can be powered up for viewing, by placing car in reverse or by the ON switch.
