

ASTRAL

ARHD BLACK BOX

Feature

Affordable windscreen mounted video recorder. This is a simple car "Black Box" video digital video recorder.

The forward facing camera video is recorded as well as the time and date on a SDHC card.

Audio can also be recorded.

Recording occurs in a circular manner with new video over writing the oldest video when memory is full. Device supports up to 32GB SD card.

Resolution of video from (HD) 1280 x 720 to (VGA) 640 x 480 is selectable.

Recording frame rate can be set 60/50/40/30 fps.

Comes with a cigarette adaptor that is 12 ~ 24 V DC.

An internal battery keeps the recorder on for 10 sec. after power is removed.

A 2Gb SD card is included and stores 1Hr video at VGA resolution at 25 fps. Video is replayed on PC.

SMALL IN SIZE COLOUR HD INCIDENT RECORDER
